

Wolverine Assemblies, LLC

Value-Added Warehouse Services

Established in July 2010, Wolverine Assemblies provides value-added warehouse services to a wide range of industries.

Wolverine Assemblies provides comprehensive warehousing services to a diverse portfolio of customers. These services, along with Wolverine Assemblies' capabilities in the areas of supply chain management and manufacturing, help reduce total

landed costs – the sum of all costs associated with making and delivering products to the point where they produce revenue.

Wolverine Assemblies has a deep understanding of the processes and work flows for a wide range of industries. The company puts this expertise to work on behalf of customers to improve efficiencies and eliminate waste from warehouse supply chain and manufacturing processes.

**Wolverine Assemblies
is a
TAG Holdings Company**
